## Let's get to know each other

Cheers!

1. Take 5 minutes to get to know your neighbor by finding out :

- Their name
- Why they are taking this course
- Their past experience with fullstack development
- What is their most favorite thing to do

2. Introduce your neighbor to the rest of the room

## What you need for the course

Laptop Computer

Coffee

Time

Hard work

Determination

A desire to learn

## Course format

LECTURE

IN-CLASS EXERCISE

HOMEWORK

FINAL PROJECT

## Course dates

### Course dates:

- Tuesdays and Thursdays, 6:30pm - 9:30pm
- 03/30 to 06/06

### Substitute on:

- 04/20

## Course goals

### Skills & Tools:

- Understand the fundamentals of fullstack development
- Learn the latest and modern web technologies by doing real projects
- Use and learn in Industry standard tools and environment

### Production Standard:

- Build a fully responsive, fullstack web application using the latest technologies and professional toolsets

Github will have all the course resources you need: assignments, sample code, and lesson decks.

All course communication with each other and the instructor happens here!
